The new collections combine the best of the two Brands and feature a perfect fusion between design, function and craftsmanship.

Porsche Design engineered and manufactured by Bric's.

## Two Brands with a Rich History and Unique Heritage

Carbon Collection

**Stuttgart/Como.** Porsche Design and BRIC'S have entered into a long-term partnership to bring a new line of bags, luggage, and small leather goods to the market. Both brands unify rich histories rooted in a family business and unique heritage, making each of their products exceptional. The new Collection combines the best of the two brands and features a perfect fusion of design, function, and craftsmanship.

Porsche Design was founded in 1972 by Professor Ferdinand Alexander Porsche - the designer of the legendary Porsche 911. His credo "if you analyze the function of an object, its form often becomes obvious", and the associated design philosophy can still be seen in all Porsche Design products. Every article stands for extraordinary precision and perfection, engineered passion, and seamlessly combines intelligent functionality with pure design. BRIC'S, established in 1952 by Mario Briccola, is a family-owned business. The Italian travel brand is known worldwide for its exceptionally designed travel and fashion accessories with 70 years of industry expertise, history, long-standing regional roots, and passion. BRIC'S stays true to the values of the Made in Italy culture and philosophy, which is a part of the company's inner soul and evident in every detail and production site, giving life to each product.

The collaboration fuses Porsche Design's functional design philosophy and engineered mindset with BRIC'S fine craftsmanship and manufacturing competence. Combining the heritage of the two renowned brands, the new Porsche Design luggage and leather Collection reflects timeless elegance, innovation and tradition, as well as functionality and high quality.

"With BRIC'S we have a partner who brings a rich heritage, a lot of passion, and many years of experience in the manufacturing sector of fine leather and travel goods into this collaboration. This expertise will further elevate and expand our well-known bags and luggage Collection, helping us to take the category to the next level. We are looking forward to kicking off this partnership and introducing the new Porsche Design bags & luggage Collection", says Jan Becker, CEO Porsche Design Group.

Roberto Briccola, President of BRIC'S, affirms "We are enthusiastic about the alliance with Porsche Design: a synergy that arises from the value of the two brands, and from the functional design philosophy of Porsche Design which identifies itself with the genius of Ferdinand Alexander Porsche. Our production has always been characterized by constant development, where innovation and tradition, functionality, and elegance are intertwined, and balanced with skilled craft, advanced technology, interpretation of new trends, attention to market demand and customers' needs".

The first Collection expresses the commitment to high performance, thanks to characteristics that are developed in each item. The products are strong yet lightweight thanks to a superior choice of materials, with maximized volumes through construction details in the suitcases and backpacks while the leather goods receive additional elements oriented towards comfort. A deep knowledge of the product and many years of passion in production meet classic minimal design looks and durability across the Collection. The model range features a selection of hard- and softcase luggage, bags, backpacks, and small leather goods, ranging from business to leisure-inspired products.

## Zwei Marken mit Tradition, Geschichte und einem einzigartigen Erbe

**Stuttgart/Como.** Porsche Design und BRIC'S gehen eine langfristige Partnerschaft ein, um eine exklusive Kollektion an Taschen, Koffern und Lederaccessoires auf den Markt zu bringen. Beide Unternehmen verfügen über eine traditionsreiche Geschichte, die ihren Ursprung in einem Familienunternehmen hat, und ein einzigartiges Erbe, das jedes ihrer Produkte besonders macht. Die neue Kollektion vereint das Beste beider Marken und zeichnet sich durch eine perfekte Symbiose aus Design, Funktionalität und traditioneller Handwerkskunst aus.

Porsche Design wurde 1972 von Professor Ferdinand Alexander Porsche gegründet - dem Schöpfer des legendären Porsche 911. Sein Credo "Wenn man die Funktion einer Sache überdenkt, ergibt sich die Form manchmal wie von allein" spiegelt sich noch heute in allen Entwicklungen der exklusiven Lifestyle-Marke wider. Jedes Produkt steht für außergewöhnliche Präzision und Performance auf einem hohen technologischen Innovationslevel und verkörpert die einzigartige Fusion intelligenter Funktionen mit puristischem Design.

BRIC'S wurde 1952 von Mario Briccola gegründet und ist bis heute familiengeführt. Tief verwurzelt in seiner Heimat im italienischen Olgiate Comasco und der Leidenschaft für hochwertige Handwerkskunst, hat sich die Marke in über 70 Jahren weltweit als Hersteller von Reise-Gepäck und Accessoires etabliert. BRIC'S identifiziert sich mit den Werten der „Made in Italy“-Kultur, was in jedem Aspekt des Unternehmens, jedem Produktionsstandort und jedem Artikel spürbar ist. Die Zusammenarbeit verbindet die funktionale Designphilosophie und technische Denkweise von Porsche Design mit der Handwerkskunst und Fertigungskompetenz von BRIC'S. Die neue Taschen- und Gepäck-Kollektion von Porsche Design vereint das Beste der beiden renommierten Marken und spiegelt zeitlose Eleganz, Innovation und Tradition sowie Funktionalität und hohe Qualität wider.

"Mit BRIC'S haben wir einen Partner, der Tradition, Leidenschaft und über mehr als ein halbes Jahrhundert an Erfahrung in der Produktion hochwertiger Leder- und Reiseprodukte verfügt. Diese Expertise gibt uns die Möglichkeit, unsere Taschen- und Gepäck-Kollektion auf ein neues Level zu heben und neue Maßstäbe zu setzen. Wir freuen uns darauf gemeinsam mit BRIC'S durchzustarten und dieses Jahres die erste gemeinsame Kollektion auf den Markt zu bringen", sagt Jan Becker, CEO der Porsche Design Group.

Roberto Briccola, Präsident von BRIC'S, stimmt zu: "Wir freuen uns sehr über die Zusammenarbeit mit Porsche Design - eine Synergie, die von den Werten der beiden Marken und dem Prinzip des funktionellen Designs von Porsche Design lebt und auf den Ideen von Ferdinand Alexander Porsche basiert. Unsere Produktion zeichnet sich seit jeher durch eine konstante Entwicklung aus, bei der Innovation und Tradition, Funktionalität und Eleganz miteinander verflochten und mit handwerklichem Geschick, fortschrittlicher Technologie, der Interpretation neuer Trends, der Aufmerksamkeit für die Marktnachfrage und die Bedürfnisse der Kunden in Einklang gebracht werden".

Die neue Kollektion verkörpert den hohen Anspruch an Funktionalität, Qualität und Design. Durch die Verwendung hochwertiger Materialien wie Nylon, Carbon oder feinstes Leder, sind die Produkte leicht und dabei äußerst robust. Das Design der Koffer und Rucksäcke ist ganz auf maximales Volumen ausgelegt, während bei den Lederprodukten der Komfort im Mittelpunkt steht. In der gesamten Kollektion kommen viele Jahre Erfahrung und Leidenschaft in der Produktion zum Tragen. Klare, minimalistische Design trifft auf hochwertige Verarbeitung. Die Kollektion umfasst eine umfangreiche Auswahl an Hard- und Softcase-Koffern, Taschen, Rucksäcken sowie Kleinlederwaren.

## URBAN ECO

Creating functional bags that look trendy and stylish, as well as being made from luxury materials, is a challenging task.

The Urban Eco Collection has met the challenge, redefining style and functionality for everyday use and commuting, in the new world of work, business and travelling. It exemplifies innovative design that responds perfectly to the design specification.

But there's more: this collection also addresses the need for sustainability. The Urban Eco Collection is made from recycled and reused materials. The Global Recycled Standard (GRS) addresses input material verification, environmental principles, social requirements and labelling for textile products made from recycled materials. This Certification guarantees that the Urban Eco Collection's fabric respects product standards for recycled material content that balance rigor and practicality.

The water resistant recycled polyester fabric has a rubber accent, ensuring the exterior is abrasion resistant and weatherproof. The unique trims and black hardware add the finishing touch.

Focusing on what's essential to exigent professionals, features range from durable and water resistant outer material and zip to keep valuable tech safe, large two way zipped flap openings, inside laptop compartments, additional pockets to organise everyday accessories, ergonomically shaped and padded shoulder straps and backs, trolley links, add-on pouches and so much more. For example, the detachable rain cover, hidden underneath the bottom panel of the backpacks.

All the items feature secure closing thanks to the elastic loop for zip pulls.

A special design for cycling addicted satisfies all their functional needs: the technical mesh on the back helps regulate transpiration, and the ergonomic shape of the back and the waist strap make this backpack ultra comfortable to wear. The helmet fixation straps are a useful detail for everyday commuting.

The zipped, welded pocket is perfectly waterproof and offers the possibility of customising the backpack: the zip pull is available in 5 different colours.

For those searching for functional style, the Urban Eco Collection doesn't just feature backpacks but also bags in lots of different shapes and sizes.

All the items come with a Porsche Design branded recycled polyester dust bag.

Funktionelle Taschen zu entwerfen, die modisch und stylish aussehen und zudem aus luxuriösen Materialien gefertigt sind, ist eine anspruchsvolle Aufgabe.

Die Urban Eco Collection hat sich der Herausforderung gestellt, Stil und Funktionalität für den Einsatz im Alltag und beim Pendeln in der neuen Welt der Arbeit, des Business und des Reisens neu zu definieren. Die Kollektion ist ein Musterbeispiel für innovatives Design, das die Designvorgaben perfekt umsetzt.

Doch damit nicht genug: Die Kollektion greift auch das Bedürfnis nach Nachhaltigkeit auf. Die Urban Eco Collection wird aus recycelten und wiederverwendeten. Der Global Recycled Standard (GRS) regelt die Verifizierung von Ausgangsmaterialien, ökologische Grundsätze, soziale Anforderungen und die Kennzeichnung von Textilprodukten, die aus recycelten Materialien hergestellt werden. Diese Zertifizierung garantiert, dass die Stoffe der Urban Eco Collection die Produktstandards für den Gehalt an recyceltem Material einhalten, die ein Gleichgewicht zwischen Sorgfalt und Zweckmäßigkeit herstellen.

Das wasserabweisende Gewebe aus recyceltem Polyester verfügt über einen Gummianteil, wodurch die Außenseite abriebfest und wetterbeständig ist. Die außergewöhnlichen Zierelemente und schwarzen Beschläge sorgen für den letzten Schliff.

Der Fokus wurde auf die wesentlichen Dinge für anspruchsvolle Professionals gelegt und die Ausstattung reicht von strapazierfähigem und wasserabweisendem Außenmaterial und Reißverschluss, um wertvolle Technik sicher aufzubewahren, über große Zwei-Wege-Reißverschluss-Klappenöffnungen, Innenfächer für Laptops, zusätzliche Taschen zum Organisieren von alltäglichem Zubehör, ergonomisch geformte und gepolsterte Schultergurte und Rückenteile, Trolley-Verbindungen, Zusatztaschen und noch vieles mehr. Dazu gehört zum Beispiel die abnehmbare Regenhülle, die sich unter der Bodenplatte der Rucksäcke verbirgt.

Alle Artikel verfügen dank einer elastischen Schlaufe für Reißverschlüsse über einen sicheren Verschluss.

Ein spezielles Design für begeisterte Radfahrer erfüllt alle ihre funktionellen Bedürfnisse: Das technische Netzgewebe am Rücken hilft bei der Regulierung der Transpiration und die ergonomische Form des Rückenteils und des Hüftgurts sorgen dafür, dass dieser Rucksack besonders bequem zu tragen ist. Die Riemen zur Befestigung des Helmes sind ein nützliches Detail für den täglichen Arbeitsweg.

Die verschweißte Reißverschluss tasche ist absolut wasserdicht und bietet die Möglichkeit, den Rucksack zu personalisieren, denn der Reißverschlusszug ist in vielen verschiedenen Farben erhältlich.
